

# SNOWSTORM PARKING

2023-2024

## Before and During a Storm:

- **Park Up Against the Buildings and in the new parking area at building 1**
- **Park in Carports if you have one**
- **Trucks and large SUV's: please park in areas up against the building in a spot not directly across from a carport**

## After a Storm:

- **Immediately after the storm: Move your vehicle to parking areas Away from the Buildings.**

## Night Storms:

- **Move vehicles prior to 10am the following morning. *Be Alert!***

**Guests:** We ask that you minimize guests as a storm starts and until final cleanup is done. It is your responsibility to make sure guests follow these winter parking procedures as well.

Please observe all coned off areas and avoid the parking spots where snow is pushed back.

If you are unable to move your car for plowing, make prior arrangements with a neighbor, family member, or friend to have your car moved before and/or after the snowstorm.

Please understand plowing is very challenging and make sure to give the snowplow driver plenty of space and the right of way.

Vehicles not moved **may be towed** and, if so, will be at the owner's expense. At the board's discretion, fines may be issued.
